

TRBOnet Enterprise

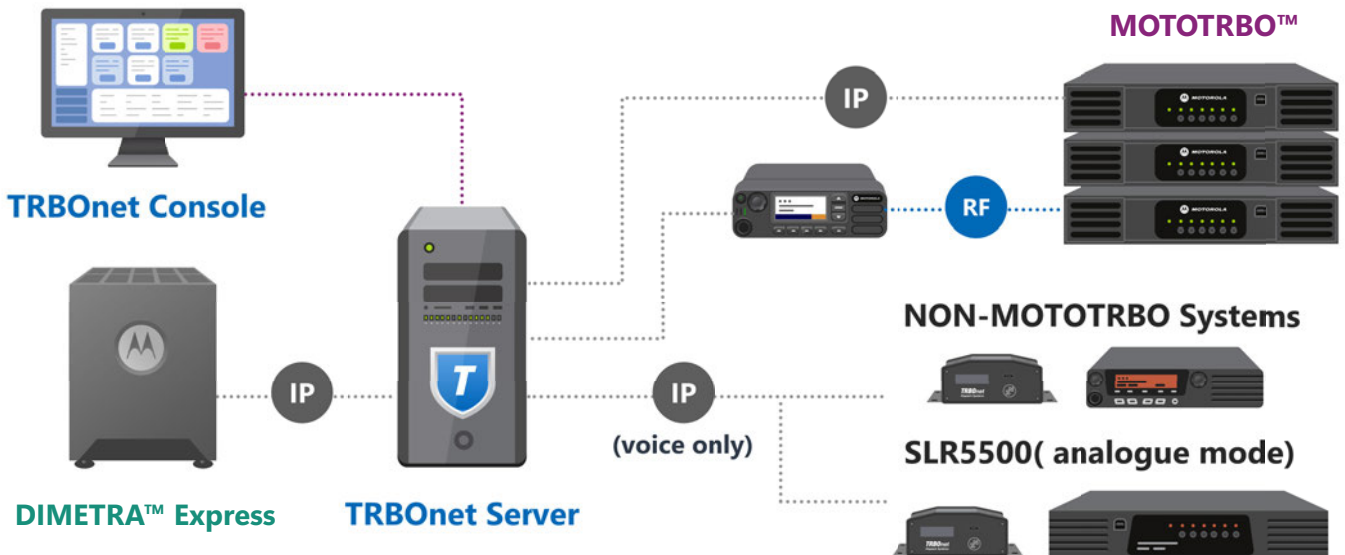

Integrated IP-based dispatch systems

Make the most of your radio network

TRBOnet Enterprise is an IP-based dispatch application with capabilities far beyond just mere dispatch functions and features. This powerful solution enables a user to fully control and manage all available resources. You can choose between our renowned Classic console or TRBOnet One, an enhanced dispatch solution with unrivalled flexibility.

TRBONET ONE

TRBONet All-in-One is an advanced console solution for TRBONet Enterprise and TRBONet PLUS. The unique configurable interface makes it easy for the administrator to create a console where the dispatcher can concentrate on tasks that really matter. TRBONet One supports most features available in the Classic console and boasts a few unique capabilities, including:

- + Flexible graphical user interface
- + Telemetry Dashboard, support for MODBUS
- + Indoor Location, support for 3D floor plans
- + Chats and file transfer
- + A notification system with configurable severity levels
- + PDF Viewer
- + Quick Commands
